

Go in stronger. Get home sooner.

**Reduce the risk of complications
in major elective surgery with IMPACT Advanced Recovery® Drink.**

- ✓ **Contains a unique blend of 3 nutrients: Arginine, Omega-3 Fatty Acids and Dietary Nucleotides supported by the American Society of Enhanced Recovery (ASER) Implementation Guide^{1**}**
- ✓ **Meets Surgical Nutrition Consensus Recommendations* for preoperative immunonutrition²**
- ✓ **Contains immune-modulating nutrients supported for perioperative use by the Critical Care Nutrition Guidelines^{3**}**
- ✓ **Shown to reduce readmission, infection and cost when used as part of a preoperative protocol⁴**
- ✓ **Successfully used in conjunction with Enhanced Recovery Protocols (ERPs) to reduce infection,⁵ length of stay, and readmission^{6,7}**

**MAJOR SURGERY PLACES
UNIQUE NUTRITIONAL
DEMANDS ON THE BODY.**

IMPACT® formulas have been specifically formulated with a unique blend of nutrients to meet the distinct nutritional needs of major surgery patients and have been shown to support the body's immune response and reduce the risk of infectious complications in a variety of major surgeries,⁵⁻¹⁰ including:

- Gastrointestinal Cancer
- Head and Neck Cancer
- Cardiac
- Gynecologic Oncology
- Bladder Cancer
- Ventral Hernia Repair
- Hip

To find more information and resources for the IMPACT® protocol, call 1-800-422-2752 or visit: www.NestleHealthScience.us/impact.
